THERE'S LIFE IN THAT YET!

Almie Louis is known as the 'Grand Recycler', and she has an eye for what can be salvaged and given a fresh start. She also has a knack for making her trash-to-treasures beautiful and unique. Take her framed wreath of fabric flowers, for example – beauty where there was once only rubbish. We applaud her for recognising the potential and then creating something lovely. And she estimates she has breathed new life into more than 1,000 has-beens. Want to see more? Go to her website at www.grandrecycler.com or Instagram @grand_recycler. Email Almie at almie@grandrecycler.com.

MAN-SHED PINNY

Probably best we don't call it a pinny, in case it challenges the home handyman. But it shouldn't, because it's such a perfect combination of great design, practicality and blokeyness. It was made by Lily Ardor as a gift for the man who has everything. She shares her step-by-steps at www.lilyardor.com/fathers-day-gift.
