Hanging Christmas Ornament

This idea is great for decorating your Christmas tree or hanging it around the house for a warm festive feeling...

You will need:

- Small glass jar
- Big wooden or plastic round beads to fit into the bottle
- Noticeboard pin
- Small pieces of wrapping paper (with a festive theme)
- Craft- or wallpaper glue
- Ribbon for decoration
- Paintbrush

How to make a hanging Christmas ornament:

1. Tear the wrapping paper into very small pieces.
2. Cover the bead and the bottle lid with paper and glue it in a papier-mâché way. Leave to dry.
3. When it is completely dry, place the ribbon on top of the lid and make a bow. Press the pin through the bow into the lid. Screw the lid back onto the bottle with the round bead inside.
